

Gulf Scooter Gear Oil

High Performance Scooter Gear Oil

Product Description

Gulf Scooter Gear Oil is a high performance gear lubricant designed to provide excellent lubrication in a scooter gear box. It is formulated from high quality base stocks and balanced extreme pressure additives to protect gear components in applications where extreme pressures and shock loading are encountered at a very high speed. It offers effective protection against oxidation degradation and rust & corrosion. It meets the requirements of API GL-5.

Features & Benefits

- Excellent Extreme Pressure properties provided protection against wear under severe operating conditions including Start-Stop city driving leading to enhanced equipment durability and lower maintenance costs
- High oxidation stability minimises sludge and deposit formation facilitating longer component life
- Effective rust and corrosion protection reduces wear and extends component life

Applications

- Scooter gears where API GL-5 gear oils are specified.

Specifications, Approvals & Typical Properties

Meets the following Specifications		80W-90
API GL-5		X
Typical Properties		
Test Parameters	ASTM Method	Typical Values
Viscosity at 100 °C, cSt	D 445	16.00
Viscosity Index	D 2270	101
Flash Point, °C	D 92	200
Pour Point, °C	D 97	-27
Density @ 15°C, Kg/l	D 1298	0.903

Aug 2020

Properties mentioned are typical only and minor variations, which do not affect product performance, are expected to arise in normal manufacturing processes. Please follow equipment manufacturer's recommendations for performance level and viscosity grade. The Safety Data Sheet for this product is available from your nearest Gulf Distributor. Please consult our local representative if any further information is required.
