

Gulf White Oil

High Quality Paraffinic Process Oil

Product Description

Gulf White Oil is a high quality process oil developed to meet the needs of manufacturers of rubber products, and for other processing industries. **Gulf White Oil** is a highly refined paraffinic oil which is light in colour, virtually free of sulphur and contain negligible aromatics and polar compounds.

Features & Benefits

- Light in colour, transparent and odourless
- Low pour point enhancing the low temperature performance
- More environment friendly due to its low sulphur and aromatic content
- Low volatility and good thermo-oxidative stability leading to reduced oil consumption

Application

- Recommended for use in applications where highly stable and highly refined paraffinic oils which are light in colour, have negligible sulphur and aromatic content are required
- Suitable for a wide range of applications including in synthetic rubber, textile, plastic and chemical industries and suitable as process oils in elastomers, plastics, adhesives and other manufacturing processes

NOTE: Store in closed environments and room temperatures. Do NOT leave it in daylight. Contamination of **Gulf White Oil** from other compounds should be avoided.

Specifications, Approvals & Typical Properties

Typical Properties		VG 32
Test Parameters	ASTM Method	Typical Values
ASTM Colour	D 1500	L0.5
Viscosity @ 40 °C, cSt	D 445	32
Viscosity @ 100 °C, cSt	D 445	5.5
Flash Point, °C	D 92	210
Pour Point, °C	D 97	-18
Density @ 15°C, Kg/l	D 1298	0.8534
